4. I talked with Emmett Echols about the apparent excess on duty over their personnel ceiling in the DD/I. Apparently, however, they are not in excess of their temporary ceiling authorized for Fiscal Year 1964. I emphasized to Emmett that he should watch this very closely and if any Deputy Directorate or even a single component within a Deputy Directorate appeared to be getting over-strengthened to a significant degree we should find out why and take appropriate action to make sure that they live within their appropriate authorization.

5. [redacted] reported that he received a call from the GSA Fire Marshall requesting that we have an unannounced fire drill in the Agency sometime during the period 7-11 October. I believe that is National Fire Prevention Week. We told Carl that we would cooperate, but I wish to confirm this with General Carter and to select the time.
